**Subject Tony Silva**

To Whom It May Concern:

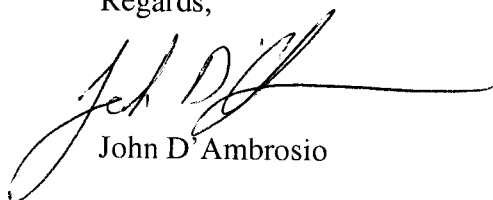

In late 2012 my Mom, who is a senior citizen, decided it was time to change homes. At first I was very hesitant as I know the stress caused by such a move and especially on someone in their 70's.

All my concerns were quickly alleviated due to Mr Silvas professionalism.

Tony was very patient and understanding. My mother was very picky and at no time did Tony become frustrated. He always had my mother's best interest at heart and never pressured her to make a decision she was not comfortable in making. In reality he was refreshing honest in certain cases where he suggest a home was not right for her. He was very knowledgeable about the homes and area she was interested in so it made the process much easier.

I highly recommend Mr Silva if you are in need of a realtor. My wife and I will retain his services if we are in the market to sell our home.
